

**PROFILFORM**

ROLL FORMING

# Both customer and product are in focus at Profilform... quality

**PROFILFORM A/S** is a **SUB-CONTRACTOR** for customised **PROFILES**. Our team has a high level of expertise in the fabrication of complex profiles and the mass-production of simple profiles.

The foundation for our work is our many years of experience in the development and supply of highly automated profile rolling lines with integrated assembly and handling units.

#### **PROFILES:**

- 1-4 mm thick and in fixed lengths
- Flexible perforation and notching patterns
- Automatic assembly option Steel, aluminium and pre-lacquered materials

#### **PROFILE ROLLING LINES:**

- 6 to 72 rolls with cassette
- Rapid start/stop function
- CNC control with touch screen
- Low noise emissions and energy consumption
- Option for integrating press, assembly units etc.

#### **PROFILFORM A/S is the business partner of the FUTURE, in respect of:**

- **PROFILE-ROLLED ARTICLES**, with subsequent processing as required
- **TURNKEY PROJECTS** with breaking-in of profiles, 2-3 years' production, operator training and handover of production lines

#### **BENEFITS for you from cooperation with PROFILFORM A/S:**

- Higher completion level of profile
- Good reliability of supply and flexibility
- High quality and finish
- Competitive price and high service level
- Advice on product development

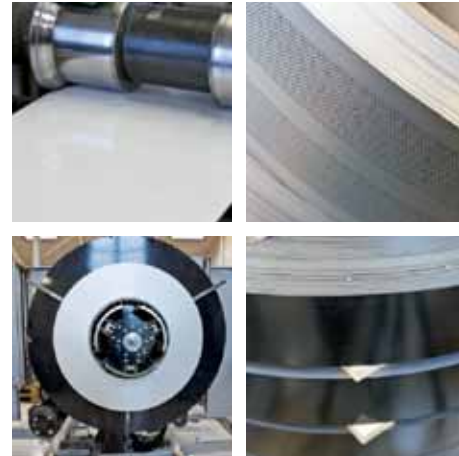

# and service are how we do it!
